

Thank you for your interest in the ML intern role at Crescer AI. Please follow these instructions to complete the initial screening round.

1. Download the dataset from [here](#)
2. Write a python script to fit a model to the given data and
3. Predict the value of  $y$  at  $x = 50$ .
4. Email your script/ipynb with the solution as a **pdf** and your prediction for  $y$  at  $x = 50$  to [ideas@crescer.ai](mailto:ideas@crescer.ai) under the subject line **Initial Screen Response, [role],[Internship or Full-time]**
